

Induction Casting Machine - LC Cast 60

Technical Data:

Electrical supply	220 VAC 10%, 50 HZ
Maximum power rating	3 kW
Minimum alloy quantity in the crucible	7 g
Maximum alloy quantity in the crucible	80 g
Material of crucible	ceramics
Material of crucible when casting precious alloys	Ceramics with graphite insert
Maximum time for full melting of 30g of alloy	60 s
Cooling	water, autonomous
Dimensions L/B/H	620/660/1060 mm
Weight	120 kg

Make: VOP- Bulgaria
