

# MINIMA

Optic

The extraordinary Minima handpiece offers the smallest size head of any handpiece currently available. Minima is optically illuminated and designed specifically for pedodontics and very difficult access areas. Speed and torque remain at excellent operational levels. Minima handpiece offers both push button and wrench type chucks.

### NSK Couplings

P4

MODEL ORDER CODE

PTL-MS T599

- Ultra miniature head (Head Height 8.6 mm)
- Friction grip chuck

PTL-MSU P599

- Ultra miniature head (Head Height 10.2 mm)
- Ultra Push chuck

# MINIMA-N

Non-Optic

Minima-N provides all the benefits of the Minima, but in a non fibre optic format. The Minima-N range offers both push button and wrench type chuck handpieces.

### NSK Couplings

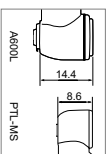

P4

PE-MS T598

- Ultra miniature head (Head Height 8.6 mm)
- Friction grip chuck

PE-MSU P598

- Ultra miniature head (Head Height 10.2 mm)
- Ultra Push chuck

The height of the Minima head was successfully minimized without compromising torque. (Illustration compares Minima with A690L Standard Type)

### The NSK Advantage
